## **DETAILED ACTION**

### ***Response to Amendment***

The amendment and written response filed 01/16/2009 has been entered and considered.

Claims 2, 10, 13, 17, 20, 21, 25-34, 37, 41, 44 and 45 have been amended.

Claims 1-48 are pending.

### ***Response to Arguments***

Upon entry of the amendment, the rejection of claims 25-33 under 35 U.S.C. 101 has been withdrawn.

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-9 are rejected under 35 U.S.C. 101 as not falling within one of the four statutory categories of invention. Supreme Court precedent<sup>1</sup> and recent Federal Circuit decisions<sup>2</sup> indicate that a statutory “process” under 35 U.S.C. 101 must (1) be tied to another statutory category (such as a particular apparatus), or (2) transform underlying subject matter (such as an article or material) to a different state or thing. While the instant claim(s) recite a series of steps or acts to be performed, the claim(s) neither transform underlying subject matter nor positively tie to another statutory category that accomplishes the claimed method steps, and therefore do not qualify as a statutory process. For example the attaching method as recited in claim 1

including steps of determining is of sufficient breadth that it would be reasonably interpreted as a series of steps completely performed mentally, verbally or without a machine.
